

SHADECARD

for aluminium profiles - powder coating (komaxit)

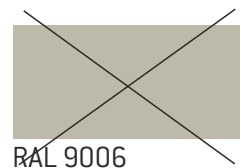

The shades shown are approximate.

Profile colours and Prihoda ART

Do you want the same diffuser and aluminium profiles color?

All the above specified colours can be applied on diffusers using Prihoda ART technology, with the exception to the metallic colour RAL 9006.

The closest colour of the diffuser to komaxit RAL 9006 is Pantone 421.

Choose the nearest profile colour to the diffusers colour from the above shadecard.

Diffuser colour needs to be chosen from the list of colours for Prihoda ART in the AirTailor software.

To see a shade of Pantone use www.pantone.com/color-finder
